

**BFG GENT**

## Reference

### Gent, Belgium

---

#### General:

**Concept/Product:**

**Building Type:** Power plants/Power station

**Client:** Electrabel

**Architecture:** Hitachi Power Europe GmbH

**Completion:** 2009 - 2010

#### Description:

Lindner insulated the entire blast furnace gas power plant with a surface of 29,000 square metres. Our insulation works included the heat and sound insulation of flue gas-, hot air-, BFG-channels, boiler, boiler porches, as well as all tubes and components with wire netting mats and galvanized sheet metal plates.

#### Completed Works:

##### Insulation of power stations
