

25HOURS HOTEL

Reference

Vienna, Austria

General:

Concept/Product:

Building Type: Hotels/Gastronomy

Client: 25hours Hotel Company GmbH

Architecture: BWM Architekten

Completion: 2013

Description:

'We are all mad here' - This claim by the 25hours hotel chain precisely describes the interior design of its hotels. By choosing fanciful, almost dreamy concepts, the chain dares to polarize and to stand out of the mass of 'ordinary' four-star hotels. The branch hotel close to the Vienne MuseumQuartier has also been following this design concept ever since its opening in 2013. It offers 217 rooms, an own roof terrace with bar, several restaurants, a large spa and many other features that render a stay memorable.

The interior designers put great attention to detail, which also applies to the large variation of furniture in the hotel: padded, individually craft and built-in pieces were chosen in many versions and appearances. All furniture and wall claddings in the public areas of the hotel were supplied by Lindner Mobilier s.r.o.
