General:

Concept/Product: , ,

Building Type: Office buildings

Client: Mirax Group

Architecture: Architekturbüro Falk von Tettenborn

Completion: 2009 - 2010

Description:

The Federation Tower is located in the business district 'Moscow City'. It is currently under construction and will be the tallest building in Europe after completion in 2016. The building offers high quality office space on 60 floors. Lindner was responsible for the complete interior fit-out including the engineering systems of the 42nd floor. The first Lindner heating- and cooling system in Russia was installed on these business premises.

Completed Works:

Heated and chilled metal ceilings

Plafotherm® E - Hook-On/Corridor ceilings

Glass partitions

Lindner Life glass partitions

Doors

Doors for wall systems - Lindner Plus

Wall claddings

Timber wall cladding - Lindner Free

Hollow floor systems

FLOOR and more®
